Professor Paul Wambua, Dean of the School of Engineering at Moi University paid a courtesy visit to President Katamine on March 26, 2013.

Nagasaki University and Moi University recently concluded an “Agreement on Academic Cooperation, and Memorandum of Understanding on Student Exchange Based on the Academic Cooperation Agreement” on October 10 last year. Dean Wambua visited Nagasaki University for the first time for the meetings and facility tours to promote further substantive exchange.

The meeting with President Katamine accompanied by Dean Ishimatsu, and Vice Dean Tanabe took place in a friendly atmosphere, with discussions of the current situation of Kenya that towards the development of human resources that contribute to the industrial development, the possibilities of exchanging of researchers, and the research activities of Nagasaki University in Kenya.
